Foundations of Aural Rehabilitation book by Nancy Tye ...

Over the years, there has been an expansion of group aural rehabilitation programs facilitated by audiologists to support new hearing aid users and their families. These programs focus on hearing aid use, the psychosocial aspects of living with hearing loss, collaborative problem solving, and the facilitation of communication strategies (Kricos, 2000).

Aural Rehabilitation | Audiology

Hearing loss is one of the most common chronic disabilities associated with aging. 1-4 In Canada, 41.1% of individuals over age 65 report that they have hearing loss. 5 The prevalence of hearing loss is exceeded only by the prevalence of disabilities in mobility and agility. Vision loss is far less prevalent, with only 24.1% of respondents reporting this disability.

This is an exciting development in aural rehabilitation. Taking an innovative approach to an old problem, Sweetow and Henderson Sabes have shown that, as part of a well-conceived and comprehensive aural rehabilitation thrust, auditory training can benefit hearing-impaired adults. In their words, "As a profession, audiology
