We are talking therefore not only about the influence of natural givens on balances of power (what Anglo-American experts on international relations sometimes call “geopolitics”) but also about the territorial aspects of rivalries and the localization of forces present in a broad international context. Geographers (teachers of geography, at least) have very different ideas about their discipline and its raison d'être.

This volume examines geopolitics by looking at the interaction between geography, strategy and history. This book addresses three interrelated questions: why does the geographical scope of political objectives and subsequent strategy of states change? How do these changes occur? Over what period of time do these changes occur?
