Create a variable myage and store your age in it. Subtract 2 from the value of the variable. Add 1 to the value of the variable.

Solution Manual of A Practical Introduction to Programming ...

MATLAB, with a chapter or two on some programming concepts, and those that cover

Access Free Matlab Second

only the programming constructs without mentioning many of the built-in functions that make MATLAB efficient to use.

Someone who learns just the built-in functions will be well-prepared to use MATLAB, but would not understand basic programming concepts.
