~~IMAGING MOISTURE METER with IGM~~

The FLIR MR59 is a pinless meter with wireless connectivity, which offers the convenience to view live readings from a mobile device via the FLIR Tools® Mobile app. Thanks to

File Type PDF User Manual Flir

the ball-shaped sensor, users can cover a large area in a short time without making a mark; measure into corners and around baseboards easily; and detect problems below the surface.

This tool has
been a long time
coming. We
already use our
FLIR C2 and One
Pro to visually
identify
moisture
boundaries and
follow it up
with a moisture
meter to get
readings.

However, it's

File Type PDF User Manual Flir

not the first
imaging moisture
meter. Back in
2016, FLIR
introduced its
MR176 imaging
moisture meter
and the new
model offers a
few significant
improvements.
